Profile Summary

UI/UX Designer with 1.5 years of experience designing user-centric web and mobile applications. I am skilled in Figma, Adobe Photoshop, Adobe XD, wireframing, prototyping, usability testing, and responsive design. Strong ability to translate business requirements and customer briefs into simple, functional, and visually appealing interfaces. Experienced in collaborating with product and development teams to deliver optimized front-end user experiences.

Education

College Of Engineering Roorkee, Roorkee

B. Tech- IT

August 2019 – June 2023

GPA: 7.8/10

Skills

Design & Prototyping

- Tools: **Figma, Adobe XD, Adobe Photoshop, Sketch, Canva**

UI/UX Expertise

- Wireframing, Prototyping**, User Flows, Usability Testing, User Research, Interaction Design, Responsive Design, Design Systems, Accessibility

Front-End Knowledge

- HTML5, CSS3, Bootstrap 5**

Core Competencies

- Problem Solving, Creative Thinking, Collaboration, **Attention to Detail**, Requirement Analysis

Work Experience

Multiverse Tech. Pvt. Ltd.

Role: *UI/UX Designer*

Duration: OCT- 2024 to Present

- Designed user-centric web and mobile interfaces for consumer-facing products, translating customer briefs into highly usable and visually appealing UI solutions.
- Designed interfaces optimized for mobile and small screens, ensuring usability, accessibility, and performance consistency across devices.
- Designed low-fidelity and high-fidelity wireframes, interactive prototypes, and user flows to solve complex UI/UX problems and improve overall user experience.
- Conducted usability testing sessions with **20+ users** and iterated designs based on insights, increasing user satisfaction by **30%** (based on internal surveys).
- Collaborated with product managers and developers to ensure seamless front-end implementation, responsive layouts, and optimized user interfaces.
- Developed professional layouts and design systems to maintain consistency across multiple products and improve front-end optimization.
- I took ownership of understanding customer requirements and converting briefs into simple, elegant, and functional interface designs.
- Applied accessibility and responsive design standards, leading to a **100% WCAG**-compliant release.

Austere Systems Limited

Role: *UI/UX Intern*

Duration: May- 2024 to OCT- 2024

- Supported the design team in creating user interfaces for **web** and **mobile** applications using **Figma**.
- Aided in developing **wireframes, mockups**, and interactive **prototypes** to visualize key features.

- Participated in brainstorming sessions to propose creative UI solutions and apply best practices for designing on small screens.
- Conducted basic user **research** and **usability** testing under supervision to gather feedback.

Projects

TATA Steel - Construction Management Website.

Role: UI/UX Designer

Tools: Figma

- Collaborated with a cross-functional team to design **150+ responsive web and mobile** screens for **Tata Steel's** Construction Management platform, ensuring seamless user experience across devices.
- Developed user-centric **wireframes, high-fidelity mockups, and interactive prototypes** using Figma.
- Worked closely with stakeholders to gather requirements and translate business goals into functional, visually appealing UI designs.
- Optimized user journeys and navigation for improved usability and efficiency.
- Applied mobile-first design principles, accessibility standards, and integrated designs into the company's design system.

Kazerooni- Property Management Portal (Dubai Based).

Role: UI/UX Designer

Tools: Figma, Adobe XD

- Led the end-to-end **UI/UX design** for a modern web-based **Property Management Portal**, streamlining operations for **tenants, landlords, and admin** teams.
- Created and delivered intuitive **dashboards, workflows, and feature-rich interfaces** using Figma, enhancing user efficiency and platform engagement.
- Designed user interfaces for consumer-facing web applications with a focus on usability, navigation clarity, and functional simplicity.
- Translated complex property management functions—like **lease tracking, maintenance requests, and billing**—into clean, easy-to-navigate user flows.
- Collaborated closely with cross-functional teams to align design with business goals, ensuring **high usability and technical feasibility**.
- Took part in regular design critiques and stakeholder reviews, iterating quickly based on feedback to deliver polished, high-impact results.

Dubai Air Navigation System (DANS)- Corporate Website.

Role: UI/UX Designer

Tools: Figma, Adobe XD

- Collaborated with a cross-functional design team to **redesign** the official DANS corporate website, improving user experience across **60+ screens** for web, tablet, and mobile platforms.
- Took **full ownership of designing 40+ tablet and mobile screens**, adhering strictly to the client's branding and

UI/UX guidelines to ensure consistency and responsiveness.

- Created detailed wireframes, high-fidelity mockups, and interactive prototypes using Figma, streamlining stakeholder approvals and developer handoff.
- Enhanced site structure and navigation, resulting in a more intuitive experience for diverse user groups including aviation professionals and public users.
- Worked with developers to ensure **100% responsive implementation** and pixel-perfect alignment across all devices.
- Took part in iterative design reviews, incorporating feedback efficiently to deliver a polished, high-performance final product.

UAE Government Accelerator Program – Website Redesign (Dubai Based).

Role: UI/UX Designer

Tools: Figma

- Collaborated with a multidisciplinary team to **redesign the official website** of a UAE-based government accelerator, ensuring alignment with national branding and digital standards.
- Designed clean, intuitive, and user-focused web interfaces to enhance usability and communicate program goals effectively.
- Refined the website's structure and navigation based on user needs and accessibility considerations.
- Worked closely with developers and project leads to ensure accurate implementation and maintain design consistency.
- Contributed to building a scalable web design system for use in future enhancements and new pages.

AZA Shipping Pvt. Ltd. – Intranet Portal Design (Dubai Based).

Role: UI/UX Designer

Tools: Figma

- Collaborated with a cross-functional team to design an internal **intranet portal** for Aza Shipping Pvt. Ltd, enhancing employee communication, document access, and workflow efficiency.
- Designed **25+ responsive web screens** in Figma, including dashboards, user profiles, document centers, and task management modules.
- Developed front-end layouts and styles using **basic HTML and CSS** to support design implementation and improve user interface consistency.
- Engaged in design reviews, iterated on feedback, and worked closely with developers to ensure accurate integration of designs.
- Provided a seamless handoff process, enabling efficient development and deployment of the intranet portal.
